DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 3, 2005 has been entered.

Response to Amendment

2. In response to applicant's amendment received on August 3, 2005, all requested changes to the specification and claims have been entered. Claims 45-90 have been added. Claims 1-44 have been cancelled.

Allowable Subject Matter

3. Claims 45-90 are allowed.

4. The following is an examiner's statement of reasons for allowance:

As to claims 45 and 68, none of the prior art teach or fairly suggest the combination of limitation stating that "prior to the user performing ANY classification" on a set of images, "automatically sorting...images...in to a plurality of groupings based on common features", followed by user manual classification. The prior art of Lin (already of record) discloses an operator selecting images and providing a manual classification for features in the image,

Art Unit: 2625

however does not teach or fairly suggest the step of sorting images with common features into groups prior to ANY manual classification by the user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
